**AUGUST 2005 SLEEP IMPROVEMENT:** Sleep deprivation affects 70 million adults nationwide. Approximately 40 million Americans suffer from a chronic sleep disorder, which is about a quarter of the U.S. population. According to a recent poll, nearly seven out of ten Americans said they experience frequent sleep problems. This month's health topic is sleep improvement. In light of these statistics and the health consequences of sleep loss, methods for getting more sleep and improving the quality of sleep are needed.

The sleep improvement packet will be available on the *new HEWP website*: <http://www.hewp.ksc.nasa.gov>. Hardcopies of the packet will also be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414.

**NEW EXTERNAL HEWP WEBSITE:** The HEWP website will have a new look and will be available outside the KSC firewall! This means that you can access the HEWP website from anywhere on the web. The new website will go live soon and will be located at <http://www.hewp.ksc.nasa.gov>. Check it out and bookmark it and work and at home!

**FUEL 4 WOMEN:** The KSC/CCAFS HEWP is launching a new women's health program titled *Fuel 4 Women*. We are very excited about bringing the women's health program back to the spaceport. This month's topic is osteoporosis. The osteoporosis packet is available at all spaceport clinics and fitness centers and will be distributed at this month's Health Education Information Table. Please contact Jessica Crews, Health Education Intern at [Jessica.Crews@jbosc.ksc.nasa.gov](mailto:Jessica.Crews@jbosc.ksc.nasa.gov) for more information or with suggestions and ideas for this new program.
